Mike's Points

April/May 2015

With the two busy open Days at Easter behind us, the next major event is the Rally on the 6th and 7th of June. The Rally is our opportunity to welcome visitors from other Clubs to see and experience our site and hospitality. As always we want to show the site and facilities at their best, and we need help from all Members in preparing and running the site on the Rally days. On the Friday evening there will be the usual Fish and Chip Supper (orders in by lunchtime please) and the ever popular Rally Buffet on the Saturday evening.

At last we have cleared all the hurdles on the planning application for the new bridge so we are going out to tender to get prices for the work. There will still be a lot for us to do on this project.

Due to some members taking advantage of the family tickets, members are reminded that family tickets are for the use of immediate family members only, not all members of family or friends. The member's name will need to be clearly marked and the member will now need to request the family stickers as they will no longer be kept on the front desk.

Rod Mackay won the Dave Teall trophy for the best non-British layout in the Bristol show. The layout is Diano Marina and based on a real station on the Nice - Genove coast line in Liguria.

Members who helped run the layout at the show
