**Mike's Points**

**Autumn 2015**

---

Ron Bignell, the President of the CMES, sadly passed away in September and over 50 members attended his funeral. Our condolences are sent to Margaret and all the family. He will be greatly missed.

A lot has happened in the Society during the last few months. We had a great visit to the Brecon Mountain Railway and a trip on the Canal. Thanks to those that organised it.

Members also visited the Llanelli and District Engineering Society's Rally and had a great time. Some of the other events can be seen in the following pages.

**Live steam double-heading on the Raised Level  
October Open Day**

The Cardiff Institute to the Blind have an area in Rhydypenau allotments and they needed help to build some raised planters. Richard Williams offered to do the block work and a group of Members helped with the preparation and site work. Another demonstration of our commitment to the Community. Thanks to all Members who helped.
