End of year roundup 2014

November saw the transformation by the members of the Tram Shed into Santa's Grotto in preparation for the Santa Special Open Day.

It involves a lot of work but everyone who sees it is impressed with the final result, especially the children.

CMES Newsletter

The preparation for the day also involves the wrapping of over 500 presents for the children.

The meeting room becomes a Santa's Workshop as the members get together for the Present Wrapping, always a pleasant gathering
